Who is Tour Central Europe?...

TourCentralEurope.com offers small and custom group tours to select countries in Central Europe including the... Czech Republic, Croatia, Slovenia, the Slovak Republic, Poland, and Hungary. We are a small group operator that creates and delivers a very personal approach to vacation travel.

We are different than most Central Europe tour companies...

<http://TourCentralEurope.com>

We are not a mass group travel service operator. We cover the territories that we personally know best. We go beyond the capitals and larger cities in each country and venture into the countryside. We show the cultural, historical, natural, musical, and culinary varieties of every region we visit. Our travelers experience these new sites and create memories for a lifetime!

Now discover a way to travel for free and experience these fabulous locations!

Here's How the GTS Program Works for You...

By simply gathering a small group of interested travelers, you will earn either... a free trip on a complete vacation tour, or, cash bonuses for your efforts.

Let's say that you belong to an organization, like the Kawanis Club for example. With the promotional material that we provide, you would approach this group (or one like it) and outline the details of a small traveling group vacationing to any of our intriguing Central European locations.

Of course, you don't need to belong to any club to earn a free trip or even cash. You can simply approach any civic group, community organization, family, businesses, or individuals that look forward to traveling to any one of these interesting Central European destinations.

This is even a perfect opportunity for you if you have talents in social media...

"I had a great time on the trip with a great, 'go with the flow' group. We visited places I would never find on my own. Loved all on the water moments, live music at dinners, especially the Gypsy musicians in Slovakia, and the quartet on our dinner cruise in Praha-a real plus. The Slovakian mountains were a beautiful surprise for me-I had no idea."

-Judy Heaberlin, Denver, CO

For obvious reasons, the former Eastern bloc countries were not a travel destination for most Americans during the more than 40 years of communist rule. Today the Iron is history and now available to all. Yet, for many Americans Central Europe is still a mysterious place.

Central Europe has come alive as one of the world's most desirable travel destinations. Today, many tour operators offer a wide range of travel programs. Many, however, do not deliver what we are able to: a great mix of activities along with off-the-beaten-path experiences, something only a small group could offer.
